LANGUAGE

English   Hindi

OBJECTIVES

Motivated Full-Stack Developer passionate about creating efficient and user-centric web applications. Proficient in Next.js, React, HTML, CSS, and JavaScript for front-end development. Skilled in backend development using Node.js and MongoDB. Eager to contribute to dynamic projects, collaborate with talented teams, and continue enhancing skills in a growth-oriented environment.

PROJECT

Admin Dashboard (NEXT JS)

- Developed a responsive admin dashboard using Next.js, featuring CRUD operations, dynamic charts, and responsive design.Real-time data fetched.
- Implemented advanced functionalities including pagination, filtering, and form validation.
- Designed and integrated RESTful APIs for seamless communication, backed by MongoDB.
- Created responsive admin dashboard UI with protected routes and Google login authentication using Next.js.

Youtube Clone (NEXT JS)

- Used Next js for a youtube clone with dynamic apis.
- Created pages where users can explore a personalized feed of videos and search for specific content with suggestion videos.
- Implemented a video player allowing users to watch videos within the application.
- Developed a visually appealing and responsive user interface ensuring a seamless experience across device.

TODO App (MERN)

- Built a MERN stack application with authentication and image upload functionality.
- Implemented user authentication with signup and login functionality.
- User can create, update, delete the Task.
- Integrated Cloudinary for user image uploads.
- Ensured responsiveness and beautiful UI.
