12th | CBSE

## LANGUAGE

English      Hindi

## OBJECTIVES

Web development enthusiast seeking an internship/job. Proficient in MERN, HTML, CSS, and JavaScript.  Eager to apply and expand my skills in front end and back end development to create user-friendly and visually appealing websites.. Quick learner, committed to growth.

## PROJECT

### MERN Stack TODO App

To-do (MERN)

- Built a MERN stack application with authentication and image upload functionality.
- Implemented user authentication with signup and login functionality.
- User can create, update, delete the Task.
- Integrated Cloudinary for user image uploads.
- Ensured responsiveness and beautiful UI.

### Youtube Clone

Youtue (NEXT JS)

- Used Next js for a youtube clone with dynamic apis.
- Created pages where users can explore a personalized feed of videos and search for specific content with suggestion videos.
- Implemented a video player allowing users to watch videos within the application.
- Developed a visually appealing and responsive user interface ensuring a seamless experience across device.

### Crypto Web App

$Crypto (REACT)

- Used React for a cryptocurrency web app
- Real-time data fetched (prices, market trends)
- Dynamic graphs visualize historical data and Panigation to manages data overload.
- Ensured mobile responsiveness for a seamless user experience with Interactive UI.
